

5/3/21 Intro to .NET

Sunday, May 2, 2021 10:41 PM

C# .NET

Default class is named Program

And the main method, is the first method that gets called/run

1. Static method (don't have to instantiate class)
2. Returns nothing (Void)
3. Takes `str[]` arguments

To create a new console application

`Dotnet new console --name "YourProgramNameHere"`

To run the program, run `dotnet run` in the directory of the .NET project

What does `dotnet run` do?

It builds and runs your application

`Dotnet build`: this command makes sure that your code compiles

`Dotnet run`: builds and runs your code
